“ Seeing you grow from 9th grade when we were blessed having you walk through our doors at Eagle Valley to now being such a strong young man - a smile that never left your face - and although there was a little mischief all in good means - you brightened everyones day. I will never forget you and me being 54 years old have learned things from you that I will take with me forever - we will meet again and I can't wait to see that smiling face greeting me.
