“ Uncle Sonny used to always show up at unexpected times and I always ALWAYS looked forward to seeing him!

*He was funny, was great with a great hug and drove my neighbors who i didn't like up the wall when he parked his truck at our house. Or should I say his Semi-tractor!*

*He played terrible golf!...at least that's how my father, Ted, teased him. (I really had no idea.)*

*In between the very very few times he came to Lincoln Park being tired at our home, he was a bundle of energy and was always watchful and always interested. He had a zeal for going around the country for United Van Lines and other truck companies.*

*He never failed to show up for any of our weddings and he did honor to my mom for being such a good brother. :) Uncle Al, smiles to you!*

“ Al will be missed. He was always our leader, mainly because Mom needed him to keep up in tow. We also had another sister die in 1979. Alice Macey of Ft. Wayne, IN. I'll pray he is where I want to be, so we can have fun again.
