“ My sympathy goes out to all of the family of Anna. I had the pleasure of taking care of her for 4 years and I always looked forward to seeing her. We would look at all of her embroidery work and she would talk of her family. I feel very lucky to have known her and will miss her terribly. She is in a much better place and I know God welcomed her with open arms. She was very proud of her family and spoke highly of everyone, and I truly believe that she knew of everyone's love for her at the end. I will miss her and miss mailing her letters for her because she always had tons of letters to mail!! It was an absolute honor to know her and will think of her fondly and with love.

“ Ann was an exceptional lady. Her boundless energy, willingness to take on any challenge, and love for all her family are the traits I will always remember. I can still see her organizing Kelly's house, tramping around in Goodsprings and sewing, sewing, sewing. We were fortunate to know Ann and will miss her. To have her for 98 years was a blessing. I believe she has earned her place in Heaven and is happy and at peace there. Donn and I send our love to all the family.

“ Grandma Flanagan was truly a wonderful lady! I always looked forward to her visits out here and to seeing her in Minnesota. As I sit here (with tears) I know that all of us whose lives she touched are better for having known her. I will always have the very best memories and feel very blessed that our 3 sons had such a terrific Grandma. With Love to all the family she so loved!

“ Ann was our aunt, but she treated us like her children and grandchildren. She always gave of herself to everyone she met. She was a friend to all; she taught us the meaning of love. We will always remember her and cherish the time we got to spend with her. We know that Heaven is a better place now that she is there. Jesus, Mary, Joseph, and all the apostles probably already have quilts!!!
Thank you, Ann, for all your love, kindness, and friendship. Our sympathy goes out to all her family and friends.
