“ You are very missed and often thought about. One quote said at my grandmothers funeral shortly after I moved back to chicago was "Dont think of this as goodbye, but everyone on the other side saying hello." So buddy until I get to say hello to you again...keep others smiling like you always did for me, and you'll always have an impact on my life.

“ Im so blessed that I had the chance to know him and take care of him over the years. He will always have a special place in my heart. He had the biggest smile that could light up the room, and always bring out the best in everyone. He is at peace now with his mom and dad. My prayers go out to his family.

“ I provided support to Cory around 1994/95. He always held a special place with me and I would think of him often after moving out of the area. He had the best smile that could light up a room. It was a pleasure knowing him and serving him. Working with him sparked my passion for providing support to people with disabilities. My condolences go out to you, his family. He's dancing in heaven!
