“ *Delores will be greatly missed. She had a very big and generous heart. She always offered her home to us and opened her doors to many others. We used to watch the Bertha Parade from her front yard. We even spent one night down in the basement waiting for the storms to go away. We always had good food and good conversation. She cared greatly for "her kids" and loved them all dearly. She will always hold a special place in our hearts. We love you all and
God Bless-from sunny Arizona.*
