“ When I was going to cosmetology school, Marge, bless her heart, allowed me to practice on her head of hair. I also remember helping out when Marge had some health issues; I helped to clean her home during a difficult time for her. I will remember Marge stopping over to Mom's house (next door) and all of us drinking coffee forever. I don't know if I have had that much coffee since. I will miss you Marge!! Love You! Miss your family! Roger and Vicki - we are thinking of you always!

“ My memories of grandma always go back to the times I would stay overnight with her or just stop by for a visit. If it was a Friday night we would walk uptown and play Bingo, and I would be able to get some Shasta pop and cookies in the back. I would hardly ever win at Bingo, but the treats made up for it :) We also would play numerous games of the card game Golf (which she taught me). Grandma was a gentle person and had a big heart and will surely be missed by many. I love you Grandma!

“ I remember growing up next door to Marge. I would practice my clarinet quiet a bit and could play one song (or at least I thought) real well. The song was "Aunt Rhodie" and Marge could hear me play and said she liked to listen. So I started calling her "Aunt Rhodie" I think she liked that. She was always very kind to me and I enjoyed her. She will be missed. My thoughts and prayers to you Roger and Vicki and to your families.
