“ Dick was often seen at Verndale events with camera in hand. His many pictorials can be found on the computer...just look them up. We treasure the ones he made us, and his animated cards were spectacular. And yes, more than once he saved me from real computer disasters. He would arrive at the door with lighting speed when called for help. His encouraging words to me were "Sally, now get back on there and make more mistakes, make bigger ones" Dick had a good sense of humor too!! The man with the camera and the little car will be sadly missed.

“ Family and friends,
I knew Dick a long time ago when he worked at the Rand Theater in Verndale. My grandmother worked there so, as a little kid, I got to tag along. Dick, very patiently, allowed me to follow him as he performed his duties in and around the theater. It was an awesome experience to learn how to change movie reels, splice film, pick the music for the pre-movie time. Thank you, Dick, you are a wonderful piece of my memories of growing up.
God bless you!
