“ Bob and Katherine helped me so much most of my life. They were both very loving and caring. Lots of fun to visit and laugh with. After they moved to Hewett I didn't see as much of them and I'm truly sorry for that.

“ The one time I talked to Bob, he seemed like a very fun loving guy. I called his house to talk to Jess, and she was sleeping. I asked Bob to wake her up, that she wanted me to call so she got up at the right time. He told me that I needed to drive up there from the cities to get her up. Then he told me that he would hold the phone to her ear so that I could wake her up myself because he didn't dare! And you know what, he actually held the phone to his sleeping daughters ear for 5 min until she woke up!

“ Bob was a gentle, loving father & husband to his wife & family. He took life in strides, being able to handle most problems that arose. He was a good younger brother, having polio at the young age of 5-6 with an iron lung to survive him and doctoring at Gillete State Hosp in St Paul, we are so fortunate he recovered as well as he did from this devastating disease. His wife Kathy was also just as adorable & loving to all. I (we) will miss both Bob & Kathy, but so thankful we did know them so well.
